### Suggested Group Experience Options – Spring, Summer and Fall

**Algonquin Golf Course** - A golf course exactly like nothing else...Breathtaking views. Ocean breezes. A challenging game. For over a century, golfers have traveled to the Algonquin Golf Course to test their skill and take in the view.

Originally constructed in 1894, the course boasts Canada's oldest clubhouse. Today's course, which takes full advantage of its location on the shores of Passamaquoddy Bay, is full of beautiful vistas and breathtaking scenery. The unforgettable oceanfront sequence of holes on the back nine in particular will challenge golfers of all

levels, and our recently completed multimillion-dollar redesign project lead by Canadian golf course architect, Rod Whitman, further improved an already award-winning course.

At the Algonquin Golf we are pleased to assist in your corporate outings. Whether an incentive program for top performers or a corporate golf tournament for 120 people, our professionals have the knowledge and skill to enhance the value and experience of your event. The most popular value-add is our corporate instructional program. Here, our golf professionals either put on a 30-minute demonstration / lesson for your entire group or make themselves available at the practice facility one hour prior to your golf outing to provide golf tips as individuals warm-up for their game. Another exciting value-add is the inclusion of our professional staff in your corporate golf experience. Whether it is playing with a selected team, hitting shots on a par 3 or hitting tee shots on a designated hole, our service-oriented staff are sure to add excitement and fun to your event.

\*Based on weather, our course typically opens in mid-to-late April and closes at the end of October.

### **St. Andrews By-the-Sea Tour with a twist (History-Mystery Tour or Tall Tales and Legends)**

Saint Andrews, NB or St. Andrews By-the-Sea as it is commonly called was founded in 1783 by the United Empire Loyalists. This little seaside town is well preserved with many of the original buildings still gracing the town. Some of these buildings were barged to the area from Castine, Maine at the end of the Revolutionary War and are listed under the New Brunswick and Canadian Registry of Historic Places making it one of the best-preserved examples of colonial heritage in North America with over 300 historic buildings.

Genny Simard, Turtle Shore Adventures, coordinates and guides tours for groups with a duration of 2-3 hours). She has developed two memorable and interactive tours popular with many groups:

#### **History-Mystery Tour**

Our guide from the 1880's will take you through our historic town to see some important sites and learn some quirky stories about smuggling, ships, robbers and merchants. Be a witness to a stabbing, and try to solve the mystery as you meet some local characters from the late 1800 period. Includes a warm beverage of your choice. (2 hours; 20 people maximum)

#### **Tall Tales and Legends**

Great stories from the past await you! Hear the tales of how this town came together, and how some families made their fortunes, while others got destroyed by greed, fires and murder. This walk will take you on a guided tour of the main streets of town, and historical sites such as the old Gaol and Courthouse, Sheriff Andrews' house, Ross Memorial Museum, and the Anglican Church. (2-3 hours; 20 people maximum)

Afterwards, delegates take a leisurely stroll through the galleries of Water Street to see work created by local artists including folk art, painted furniture, jewellery, pottery, stained glass, and the largest selection of St. Andrews prints.

#### **Other tour ideas through Destination Management Companies**
